EDUCATION

University of California, Los Angeles | MEng, Artificial Intelligence, Dec 2026

University of California, Los Angeles | BS, Computer Science, June 2025

GPA: 4.0

GPA: 3.87

SKILLS

**Relevant Courses:** Machine Learning, Data Structures, Algorithms, Operating Systems, Compilers  
**Languages:** TypeScript, JavaScript, Python, C++, Java  
**Frontend:** React, React Native, Bootstrap  
**Backend:** Node.js, Express.js, Docker  
**Machine Learning:** PyTorch, TensorFlow, OpenCV, LLMs, Pandas, Matplotlib  
**Databases:** PostgreSQL, Firebase  
**Tools:** Git, BitBucket, Jira, AWS  
**Certifications:** AWS Cloud Practitioner, Full-Stack Web Development

EXPERIENCE

Koios Enterprises, Calabasas, CA — Fullstack Engineer

Oct 2025 – Present

- Built a video repository microservice managing 1000+ video assets and lifecycle states, improving compliance handling and scalability by 30%.
- Developed 8+ RESTful APIs for video upload, publishing, and access control, reducing integration time for partner services by 40% through standardized schemas and OpenAPI docs.
- Integrated PostgreSQL, AWS S3, and a packaged repository module to streamline metadata and storage operations, cutting latency by 25%.
- Provided technical leadership in schema design and API development, standardizing RESTful conventions and improving team onboarding efficiency by 20%.

Rosemead Dental Lab, Rosemead, CA — Software Engineer

June 2024 – September 2025

- Led a cross-functional team of 3 engineers to design and deploy a secure e-commerce system, reducing manual order processing by 60%.
- Architected and optimized backend workflows, improving API response times by 35% and increasing client order throughput.
- Trained a computer vision model (YOLOv11) for dental cavity detection, achieving 90% accuracy and cutting training time by 10%.

UCLA Computer Science Department, LA, CA — Tutoring Chair

Sep 2022 – Sep 2025

- Led 200+ student review sessions for data structures, algorithms, ML, AI, and databases.

Qing Hui Fu DDS Inc, Alhambra, CA — Technology Intern

Aug 2023 – Sep 2023

- Automated workflows for 50% of patient records, increasing efficiency by 25%.

PROJECTS

AskDirectory – AI File Query Web App | React.js, Bootstrap, Node.js

June 2025 - September 2025

- Built an AI-powered PDF query tool integrating Google Gemini API, reducing data lookup time by 70% through parallel computing.

Java to RISC-V Compiler | Java, CI/CD (Gradle)

March 2025 - June 2025

- Engineered a compiler translating Java code to RISC-V assembly, implementing parsing, type checking, and register allocation to improve execution efficiency by 40%.

QuizAI – AI-Generated Quiz Platform | React, Node.js, Bootstrap

June 2024 – September 2024

- Engineered a full-stack quiz platform using the Google Gemini API to generate semantically accurate questions from user-defined topics.
